

Online ordering enhancements that delight your customers

Meet the sleek and intuitive online ordering platform that's easy to use and keeps guests coming back.

Online ordering FAQs

Why is Heartland enhancing the online ordering feature?

Your customers want online ordering that is easy, enjoyable and intuitive. We give you the tools to provide that experience, keeping them loyal and you competitive.

How does it work for guests?

Step 1: Start an order and choose between carryout and delivery (this can be changed at any point in the ordering process — no need to start over). Select that you want it as soon as possible or schedule a future time.

Step 2: Browse the menu. Items can have custom images, descriptions and prices displayed.

Step 3: See recommended upsell options based on your selections.

Step 4: Breeze through a smooth checkout experience, choosing if you want to tip and how you want to pay.

What are some enhancements of Heartland's online ordering feature?

Customers can now customize orders to fit their taste preferences, dietary restrictions and more. Based on extensive consumer research, Heartland created a new ordering process flow that makes it easier for customers to get exactly what they want. The interface and layout are extremely easy to read and navigate.

Who will get this enhanced online ordering experience?

All merchants — regardless of POS plan — will have access to it.
